Our unique alternative

Your pets are our priority.

Our professional, home from home pet care service has been specifically designed for pet owners who are unable or unwilling to use traditional forms of kennelling. Instead, we arrange accommodation with one of our carefully selected host families who will maintain your pet's home life routine for exercise and feeding, and whose environment is similar to your own.

"I wish I had heard of this service 10 years ago - it would have saved much heartache!"

Sonia Welsh, Northallerton

"Well done you provided Berry with a true home from home, much happier for her and us than kennels, thank you."

B and M Curtis, Glenrothes

Our professional service

In the first instance we arrange to meet with you and your pet at home to find out about daily routines for exercising and feeding, their likes, dislikes, and healthcare. A suitable match is then made with the most appropriate host family.

We provide a complete service including collection and delivery ensuring parting is less stressful for you and your pet.

Our service is suitable for those dogs who would enjoy a holiday in a home from home environment.

"We were especially pleased with the effort made to find an appropriate host for Zimba's needs"

Mary Godwin, Shropshire

Our loving host families

Our host families are very special people. They have all, without exception, met our strict criteria and are dedicated pet lovers.

The dogs really are part of the family long before they leave and we can't wait to have them back. It's a really happy experience for all of us! Lynné, Somerset.

Many of our host families are retired people who enjoy the flexibility of caring for a pet without the full time responsibility. Alternatively, they may be at home during the day with children or pets of their own, and a visiting dog complements their existing situation perfectly.

"We've always loved dogs and after our own dog died the house felt so empty so we decided to do Hosting. All the dogs we've had have been so loveable and well behaved. We look forward to them coming back time after time. Also the exercise you get is good for you."

Brenda Garbutt. Leeds
